Career Goal:

A talented and resourceful professional looking for the right opportunity to build a long term career as a Back-up Recovery Consultant and contribute my skills in designing backup and recovery solutions for Tier 1 apps such as Microsoft Exchange, SQL Server, Oracle, etc.

Technical Skills:

Sound knowledge of back-up applications:

- NetBackup
- Networker
- Data Protector
- TSM
- Commvault

Proficient with scripting tools:

- Perl
- Bash
- Posix shell

Expertise in backup storage hardware:

- Direct and SAN attached tape drives
- EMC Avamar
- Data Domain
- Virtual Tape Libraries (VTL)

Skilled in installing and troubleshooting network file systems:

- NFS
- CIFS

Familiarity with HP and EMC storage platforms:

- MSA, EVA and XP
- VNX, Clariion, Celerra and Symmetrix

Outstanding ability to integrate enterprise backup applications with:

- Oracle RMAN
- MS SQL Server
- SAP

Amazing ability to perform:

- Automating backups
- Backup and recovery tuning
- Performance measurement

Effectively worked with various operating systems:

- UNIX
- Windows
- Linux
