
CABIN CREW CV

Cabin crews are considered frontlines to passengers. They are the “right-hand” of passengers when it comes to attending to the latter’s needs. When applying for a cabin crew position, what are the focal points that you should present in your Cabin Crew CV? One must be your fluency in different languages like English, French, Spanish or German. Being multi-lingual is a great advantage if you are applying for this position since you deal with people from all over the world. Another focus that you can include is your knowledge in safety procedures and protocols in the cabin. Let us take a look at the sample CV of a Cabin Crew below.
