CCNP NETWORK ENGINEER RESUME

Edward Mcleod
3905 Wood Street
Houma, LA 70360
(333) 973-9583
Email : [email]

Career Goal:

A dedicated, driven professional seeking to secure a CCNP Network Engineer position with an established company that will allow me the opportunity to use my skills and proficient knowledge in the area of LAN/WAN topology, switches, routers, firewalls, Application Content Engine (ACE) wireless access points, wireless controllers, Voice over IP (VOIP), WAAS and VPN Knowledge.

Technical Skills:

Proficient with cisco wireless units:

- Access points
- Wireless LN controllers
- WCS
- NCS

Skilled in routing protocols:

- IGRP
- EIGRP OSPF
- BGP

Expertise in ticketing systems:

- Clarify
- Remedy
- ETMS

Well-versed in network management systems:

- HP Openview
- Netcool OMNIBus Conductor
- Alarm Handler

Operational knowledge of:

- Cisco wireless networking
- Cisco routers
- Cisco CLI
- Cisco CSS/CSM load balancing hardware

Familiarity with layer 2 and layer 3 topologies:

- Spanning-Tree
- Dynamic Routing

Effectively worked with various networking and troubleshooting tools:

- Cisco IOS
- Concord Network Health Monitor
- Site Manager
- Contivity Browser

Relevant Experience:

CCNP Network Engineer
Systems Technology International Inc
January 2012 – Present
Houma, LA

- Designed and installed networks connecting multiple OS platforms and topologies in single infrastructure.
- Reviewed technical designs to ensure fulfillment of project aims and user's needs.
- Installed and aligned switches, routers and firewalls through all network layers.
- Accomplished and documented security related activities to maintain network security and data reliability.
- Designed network architecture including VLAN, LAN, WANS and remote networks.
- Provided real time support in diagnosing and resolving networking issues.

- Evaluated network and devices to detect security flaws and responded accordingly.
- Documented and completed various projects timely and effectively.

CCNP Network Engineer
Eastridge InfoTech
November 2010 – January 2012
San Diego, CA

- Used Microsoft VISIO as technical documentation and presentation tools.
- Analyzed LAN/WAN to determine network performance problems. Provided solutions, and documentation.
- Evaluated, and analyzed corporate LAN to determine what improvements need to be done.
- Installed and migrated devices and software in network as required.
- Engaged in daily analysis, design, documentation, change management, implementation, and support of client's network infrastructures.
- Provided timely problem resolution of WAN/LAN issues on site.
- Maintained hardware and software inventory with detailed configurations and settings.
- Initiated projects as required to enhance and improve performance and uptime standards.
