# CONSTRUCTION ENGINEER CV

---

Construction Engineers facilitate building constructions and renovations. They work with supervisor, mason, contractors, and suppliers. They see to it that specifications adhere to the blueprint. They ensure that every aspect of construction phase is accurately constructed, calculated, estimated, and polished. When you write a Construction Engineer CV, make sure to include skills associated with these duties. Mention competencies in CAD and database systems, electrical installations, cost estimates, disposal, and drawing interpretation. You should also stress out your strong familiarity with all construction processes, equipments and regulations. Since construction engineers oversee people, they should also possess excellent communication and leadership skills. Look at the sample CV of a Construction Engineer below.

Ap #907-367 Fermentum Rd., Bristol, Gloucestershire, U36 1OP

Tel: – 01979 497756

Date of Birth: – 12/01/90

[email]

Nationality: – British

---

## PERSONAL PROFILE:

---

I have over two years experience as Construction Engineer in two different companies. During my employment, I was trained to design schemes for complex projects such as the restoration of the Marina Complex and the rehabilitation of Walls Complex in UK. I have a solid background in structural and civil engineering, strong grasp of developing action plans, and very adept in using CAD and database systems and other Microsoft Office applications. I also have a solid background in construction commissioning. I have interacted with different people from project leaders, engineers, completions and commissioning team, suppliers and construction coordinator. With this said, I am confident that I will be a great addition to the company.

---

## PROFESSIONAL SKILLS:

---

- Highly experienced in managing construction projects
- Wide knowledge of building structures, electrical distribution and piping
- Good knowledge of civil engineering technologies and trends
- Familiarity with CAD system
- Ability to develop construction plan within assigned budgets
- Ability to review and handle building contracts

---

## PROFESSIONAL EXPERIENCE:

---

Construction Engineer	Aker Solutions – Sutherland	Mar 2013 to Till Date
-----------------------	-----------------------------	-----------------------

- Reviewed electrical wirings and piping configuration of constructions.
- Participated in designing of building plans.
- Reviewed and recommended improvements to building plans to meet objectives.
- Provided engineering expertise to construction projects from start to finish.
- Reported project progress and any issues to Construction Manager on weekly basis.
- Ensured to follow safety standards at all times.

Construction Engineer	NES Group Limited – Gloucestershire	Sep 2012 to Mar 2013
-----------------------	-------------------------------------	----------------------

- Performed topographical and geotechnical surveys on construction site.
- Determined constructability based on project contract documentations.
- Prepared survey reports and maintained construction information.
- Performed risk assessment and provided remedial actions.
- Participated in estimation of budgets and man hours to complete the project.
- Managed subcontracts and responded to subcontract inquiries.

---

## QUALIFICATIONS:

---

BEng (Hons) in Civil Engineering

Napier University – Edinburgh

Sep 2008 to Jun 2012

A Levels in Computing, Mathematics, Physics, Chemistry, English Language

Inverness College – Inverness

Oct 2006 to Jul 2008

GCSEs: 8 including Maths, Physics, Chemistry, English Language

St Benedict's School – Ealing

Sep 2001 to Jul 2006
