---

## Career Goal:

---

Seeking opportunity to join a highly qualified technical team as a DDC Programmer where my skills in HVAC systems, DDC automation systems and IP networks will be enhanced and fully utilized in complement existing solutions

---

## Technical Skills:

---

Profound knowledge of control systems and programs:

- Air conditioning
- Temperature controls
- Access control systems

Strong technical command of advanced solutions:

- Tridium
- Lonmark
- Echelon products

Dexterity in DDC processes:

- Reciprocal compressors
- Mechanical drawings
- Electronics

Exceptionally skilled in mainstream software packages:

- MS Visio
- MS Office

Quick and excellent in technical documentation concepts:

- Wiring diagrams
- Delta controls
- Blueprints

Cognitively expert in automation systems:

- Lighting
- Security

Good knowledge of competitive hardware:

- TAC
- Carrier
- KMC

Extreme abilities to:

- Analyze equipment malfunctions and prepare technical drawings
- Work with DDC controls and specifications
- Develop integration solutions and design computer apps

---

## Relevant Experience:

---

DDC Programmer  
Engineered Control Solutions  
January 2012 – Present  
Camden, NJ

- Developed and implemented control sequences and requirements.
- Conducted setup services and commissioning on assigned projects.
- Participated in understanding of building codes and HVAC applications.
- Supported plumbing activities and formulated HVAC controls.
- Prepared DCC system documentation and created user interfaces.
- Analyzed project specifications and technical drawings as per programming strategies.
- Implemented field modifications and reviewed voicemail communication services.

- Evaluated and documented DDC project status and outstanding projects.

DDC Programmer  
Automated Building Systems, Inc.  
November 2010 – January 2012  
Southborough, MA

- Automated and managed HVAC control systems.
- Formulated and executed controls logic and engineering methods.
- Participated in commissioning services by onsite visits.
- Managed DDC projects and generated project status reports.
- Prepared and reported submittals for assigned projects in MS Visio.
- Created and updated submittal packages with hardware selections.
- Maintained documentation of flows diagrams and network layouts.
- Provided assistance for collection of field changes and drawings.

---

### **Educational Background:**

---

Bachelor's Degree in Computer Engineering  
Francis Marion University  
August 2006 – May 2010  
Florence, SC
