
Design Drafter Resume

Job Objective

A talented Design Drafter with professional hands-on experience looking for a job within an organization with future career advancement opportunities.

Highlights of Qualifications:

- Wide experience in creating engineering drawings
 - Profound knowledge of CAD drafting techniques
 - Exceptional knowledge of geometric dimensioning procedures
 - Familiarity with drafting standards such as ASME, ANSI and AWS
 - Proficient with AutoCAD, Adobe Acrobat and MS Office applications
 - Amazing ability to develop complex designs independently or in a team environment
 - Immense ability to handle multiple projects simultaneously
 - Outstanding ability to calculate tolerances on assembled components
-

Professional Experience:

Design Drafter
Scotsman Industries, Inc., Seattle, WA
August 2007 – Present

Responsibilities:

- Produced detailed engineering drawings representing parts and assemblies.
- Developed electric, pneumatic and hydraulic schematics.
- Created sectional, auxiliary, and orthographic views of the parts.
- Maintained Drafting logs and ECN logs.
- Prepared drafting estimates for sales quotas.
- Ensured that parts design can withstand extreme tolerances.
- Coordinated with Design Engineers to design new components based on customer requirements.
- Performed field inspections and developed field survey reports.

Design Drafter
ARRIS Group, Inc., Seattle, WA
May 2004 – July 2007

Responsibilities:

- Developed Bills of Materials for new design drawings.
 - Worked with design team to prepare drafting schedules.
 - Discussed layout options with design team.
 - Prepared 2D and 3D drawings based on unit layout.
 - Re-reviewed own designs to eliminate errors.
 - Provided support in assembly floor during build phase.
 - Collaborated with Supervisor to improve design documentation procedures.
 - Completed ECR and ECN documents within deadlines.
-

Education:

Bachelor's Degree in Mechanical Engineering
Santiago Canyon College, Orange, CA
