EJB DEVELOPER RESUME

Objective:

Seeking the position of EJB Developer in a prestigious organization where I can confidently share my expertise in Calypso API, multithreaded systems, Linux or UNIX, and TCP/IP communication. My 7 years' expertise in Calypso API will be very useful in reducing costs of the company.

Education:

MS in Desktop Applications, 2003
Stanford University

Bachelor of Science in Computer Science, 1999
Stanford University

Skills:

- Calypso API
- Understanding of complex, multithreaded systems
- Experience with TCP/IP communication
- Solid Linux or UNIX experience
- Experience in the full software lifecycle, from design through deployment and support
- J2EE. Solaris, NT, WSAD
- Good communication skills
- Good object-oriented and architectural design senses
- Direct responsibility for mission-critical systems

Professional Experience:

- EJB Developer II, 2006-present
- California Civil Design Group, Alpine, CA

Responsibilities:

- Developed test methodologies to assess strength of stress test and efficiency of insertion.
- Performed test validation techniques on business line for high volume products.
- Validated benchmarks, prototypes and optimization methods used for various components.
- Consulted with project leaders for architecture proposals.

- EJB Developer I, 2005-2006
- Adobe Associates, Sta Rosa, Alpine, CA

Responsibilities:

- Developed graphic tools to be able to visualize and calculate prototype indicators.
- Managed the re-engineering and re-construction of multifaceted systems to reconcile data.
- Selected and scrutinized commercial software packages using Unix-NT and C++.

- EJB Consultant, 2003-2005
- Freitas + Freitas, Engineering & Planning Consultants, Alpine, CA

Responsibilities:

- Developed test methodologies to assess strength of stress test and efficiency of insertion.
- Performed test validation techniques on business line for high volume products.
- Validated benchmarks, prototypes and optimization methods used for various components.
- Consulted with project leaders for architecture proposals.

- EJB Developer I, 2005-2006
- Adobe Associates, Sta Rosa, Alpine, CA

Certifications and Affiliations:

Certification in Computer Science- systems and networks
Calypso Training & Certification
