
HELICOPTER PILOT CV

Below is a sample CV of a Helicopter Pilot where the key qualities are highlighted. Experience with commercial and military helicopter operations and other flying experiences (transport flights, night flying, mountain flying, etc.) should be presented first. Also include highly useful skills such as ability to train other pilots and expertise in Bell UH-1H and V helicopters among others. Normally, employers would prefer if you have a degree in Aeronautical Engineering or other related courses. Having a clean track record is a great advantage. Present your duties and responsibilities in your previous employment (if there is any) in your Helicopter Pilot CV.

Dustin Valentine

P.O. Box 294, 250 Magna St., Sanquhar, Dumfriesshire, JP73 3JE Date of Birth: August 22nd, 1989

Email: [email] Mobile: 07796 493915 Tel: 01498 074070

PROFILE:

My primary objective is to transport passengers, cargo, or information in excellent condition and as safely as possible. Equipped with the necessary training, experience, and dedication to my duty, I am positive that this can be achieved. I aim to eliminate liabilities by following all safety protocols as well as meeting all enforced requirements general and specific to the job. With over two years of experience, I can affirm my qualifications in conducting safe and successful flights and having necessary skills to train other pilots as well. If given the opportunity, I am willing to impart my expertise to the company.

SKILLS:

Admirable experience in providing instructions for flight and flying over mountains and at night
Exceptional knowledge of various night vision equipment for helicopter
Immense knowledge of all air traffic laws and regulations
Ability to maintain appropriate distance between helicopters.
Ability to comply with all policies and procedures

EDUCATION:

BEng (Hons) in Aeronautical Engineering Cranfield University	Bedford October 2007 – June 2011
A-levels: Mathematics, Chemistry, Physics, English Language, Electronics Southgate College	Southgate September 2005 – June 2007
GCSEs: Maths, Physics, Chemistry, English Language Chestnut Grove School	Balham September 2000 – June 2005

CAREER HISTORY:

Bristow Group Helicopter Pilot	East Anglia October 2012 – Present
-----------------------------------	---------------------------------------

- Ensured compliance to all FAA regulations and procedures.
- Maintained knowledge of local weather and forecast to ensure a safe flight.
- Analyzed and recommended improvements to increase the effectiveness of the unit.
- Coordinated with Director of Operations and informed about aircraft safety and passengers.
- Established radio communication with the Air Traffic Control whenever required.

Raeburn Group Limited Helicopter Pilot	London August 2011 – October 2012
---	--------------------------------------

- Participated and completed flight training program efficiently.
 - Maintained various aircraft systems and emergency procedures.
 - Coordinated with team members and prioritize all work as per requirement.
 - Supervised working of flight and ensured timely arrival.
 - Developed and modified all documents as per FAA regulations.
 - Designed instructions for external loading and unloading of passengers and goods.
