HL7 INTERFACE PROGRAMMER RESUME

Molly La
4369 Flynn Street
Vermilion, OH 44089
(333) 771-1143
Email : [email]

Career Goal:

Looking for HL7 Interface Programmer position in an established organization, where I can promote my skills in HL7 mapping and data interchange between multiple healthcare and business applications.

Technical Skills:

Worked with multiple database systems:

- Microsoft SQL Server
- Oracle

Expertise in scripting languages:

- JavaScript
- VBScript

Proficient in supporting communication protocols:

- TCP/IP
- SNA
- FTP

Skilled in programming languages:

- XML
- .NET

Strong capability to perform:

- Real-time interface spooling
- Archiving
- Client/server configuration
- Pseudo Connections
- Error exception handling

Outstanding knowledge of:

- SQL queries
- Stored procedures
- triggers
- indexes
- table structures
- database designs

Amazing ability to monitor:

- Integration engine performance
- Logs
- Databases
- Connections
- Disk usage

Sound knowledge of:

- Network architecture
- Servers
- clustering

Relevant Experience:
