---

## Career Goal:

---

To contribute my exceptional knowledge and expertise in Power Exchange, CDC, SOA, IDQ, power center, SQL and Unix as an Informatica Architect.

---

## Technical Skills:

---

High technical knowledge of Informatica components like:

- Metadata manager
- Mapping Analyst
- IDQ, CDC, Power Exchange

Adept in utilizing data modeling techniques:

- Logical modeling
- Relational modeling
- De-normalization, Normalization

Quick and brilliant in utilizing methodologies like:

- Star schema
- Snow flake schema

Thorough with programming languages:

- SQL
- PL/ SQL
- Unix Shell scripting

Proficient in utilizing tools:

- IBM data studio
- TOAD
- IBM Lotus Notes

Superb with scheduling tools:

- Informatica Scheduler
- Autosys
- Control-M

Immensely talented in managing operating systems:

- Unix
- Linux
- Windows 7/ XP/ 2000

Vast capabilities to:

- Interpret relational databases and Data warehouse principles
- Utilize best practices to suggest data integration solutions

---

## Relevant Experience:

---

Informatica Architect  
Perficient Inc.  
January 2012 – Present  
Boston, MA

- Assisted in designing and implementation of data warehouse solutions along with data integration and analysis.
- Provided technical assistance for architecture and framework of Informatica based ETL solutions.
- Implemented procedures for suggestion and implementation of ETL processes and architecture enhancements.
- Coordinated with technical teams for estimation and translation of client and business requirements into specific systems.
- Supported technical team members for deployment of data integration processes in production systems.
- Executed processes for designing application modules to produce required products.

- Participated in development and integration of application into company products.
- Prepared detailed technical documentation relating to designs, mappings and system administration.

Informatica Architect

Youngsoft Inc.

November 2010 – January 2012

Detroit, MI

- Coordinated with development and architect teams for data marts and regulatory reporting projects.
- Assisted in designing, coding and testing of projects utilizing Informatica and Oracle ETL applications.
- Implemented procedures for debugging and troubleshooting of technical and production issues.
- Executed engineering processes for maintenance of data integrity and quality functions in data warehouses.
- Provided technical assistance for performance monitoring, scheduling and management of notification systems.
- Supported technical team members in designing and implementation of production processing tools.
- Participated in development of workflows and mappings utilizing Informatica ETL and shell scripts.
- Suggested effective processes for ETL designing, coding and overall configuration.

---

### **Educational Background:**

---

Master's Degree in Information Technology

Trident Technical College

August 2008 – May 2010

Charleston, SC

---

### **Professional Certification:**

---

Informatica Certified Professional Data Explorer Specialist July 2010
