# MOTION GRAPHICS DESIGNER CV

---

When writing a Motion Graphics Designer CV, highlight information that will convince the employer of your proficiency for the job. Present a strong educational background and/or trainings attended, as well as experience working in various motion graphics production environments. Skills in 2D animation, video editing, design, sound editing, non-linear editing, Adobe creative suite (Photoshop, InDesign, Dreamweaver, etc.), and other associated skills should be stressed out. Also highlight your areas of expertise: it could be with 2D motion design, 3D modeling, video production, etc. An extensive portfolio is also a plus. Below is a sample CV of a Motion Graphics Designer for your perusal.

**Declan Mason**

P.O. Box 167, 1380 Dui. Avenue, Blairgowrie, Perthshire, IX 2WZ Date of Birth: March 29th, 1990

Email: [email] Mobile: 07776 085453 Tel: 01435 589474

---

## OBJECTIVE:

---

My main goal is to produce high-quality content featuring topnotch animations, videos, and visual effects that support the mission and core goals of the company. I aim to develop innovative designs by using the latest technologies and in collaboration with a talented team. By doing this, I am positive that my goal can be achieved. With my two years of experience as a professional motion graphics designer, I have enhanced my skills in creating and manipulating visual designs as well as acquiring new concepts and techniques over time. If given the opportunity, I am willing to impart my expertise in promoting the growth of the company.

---

## PERSONAL SKILLS AND COMPETENCES:

---

Admirable experience in monitoring broadcast for all post production activities  
Sound knowledge of various graphic and HD techniques  
Profound knowledge of all post production activities  
Ability to analyze and interpret all client ideas and requirements  
Ability to design 3D models and animation projects  
Proficient in all Adobe Creative applications

---
