
PETROLEUM GEOLOGIST RESUME

Summary:

A highly motivated individual whose expertise is focused on analysis of reservoir petrol; calculation of economic forecasting and reserves; analysis of heavy oil; generation and evaluation of oil field prospect; and skilled in horizontal and well site coiled tubing technology.

Professional Experience:

Senior Petroleum Geologist February 2006 – Present
Atlas Oil Company, Chicago, IL

Responsibilities:

- Performed daily drilling/completion operations of rigs.
- Drilled single, double and multilateral horizontal wells.
- Developed the entire well delivery process.
- Coordinated, managed and implemented 12-rig drilling sequence.
- Supervised aqueous geochemistry water flood system.
- Established ultimate recovery and mentored of national staff.

Junior Petroleum Geologist May 2004-February2006
Groundwater & Environmental Services, Aurora, IL

Responsibilities:

- Monitored well site operations in both exploratory and development wells.
- Established the placement and steering of horizontal wells.
- Estimated and published the annual reserves statement of the company.
- Explored and developed geology and main areas of activity.
- Exploration and formulation of plan strategy.
- Performed reservoir mapping.

Geologist May 2002- June 2004
Groundwater & Environmental Services, Aurora, IL

Responsibilities:

- Performed daily drilling/completion operations of rigs.
- Drilled single, double and multilateral horizontal wells.
- Developed the entire well delivery process.
- Coordinated, managed and implemented 12-rig drilling sequence.
- Supervised aqueous geochemistry water flood system.
- Established ultimate recovery and mentored of national staff.

Junior Petroleum Geologist May 2004-February2006
Groundwater & Environmental Services, Aurora, IL

Education:

Bachelor of Science in Geology
Rice University, TX, 2002

Skills:

- Knowledge of petroleum geochemistry and basic modeling
 - Strong interpersonal and organizational skills
 - Familiar with petroleum industry software and programs
 - Ability to integrate geophysics techniques with data to produce drilling opportunities
 - Strong mapping skills
 - Computer literate
-

Awards and Affiliations:

Member, American Association of Petroleum Geologists

Member, Association of Geologists
