

QA MANAGER CV

In crafting a CV of a QA Manager, it is ideal if you present first the skills that will give the employer the impression that you indeed have what it takes for the job. Be specific in data you present. Include your skills and experience in quality assurance management, ISO 9000 and CMMI, managing remote quality teams, and various platform testing: Performance, Stress, Functional, Load, Mobile and cross platform. Present all your professional experience in reverse chronological order. In this manner, you are giving the employer a summary of what you can offer to the company. A sample QA Manager CV is presented below for reference.
