
RF Design Engineer Resume

Job Objective

Looking for work as a RF Design Engineer today in order to further advance my skills in the industry.

Highlights of Qualifications:

- Remarkable experience in outlining and designing RF circuit
 - Operational knowledge of RF simulation tools, network analyzers and spectrum analyzers
 - Steep knowledge of HFC and PON architectures
 - Proficient with Spectrum Analyzers, Network Analyzers, RF Signal Generators, Oscilloscopes, and DMM
 - Familiarity with CAD design layers – drill files, soldermask layer, centroid files for assembly
 - Ability to organize and operate a series of RF measurements, compile and report results
 - Skilled in creating matching networks and power amplifiers
 - Outstanding ability to work in a team environment
 - Ability to apply design and development tools
 - Superior communication and interpersonal skills
 - Strong analytical and documentation skills
-

Professional Experience:

RF Design Engineer, August 2005 – Present
Stephens International Recruiting, Kokomo, IN

- Created designs and handled system analysis and device selection.
- Assisted Systems and Architecture on requirements.
- Formulated schematics and supported PCB layout.
- Aided prototype builds.
- Upgraded reference designs.

RF Design Engineer, May 2000 – July 2005
Spectrum Design Solutions, Kokomo, IN

- Designed and enforced active and passive RF circuits.
 - Evaluated antenna requirements and development.
 - Coordinated in high-level project analysis, technical specifications and long-range project plans.
 - Managed training and development programs.
-

Education:

Bachelor's Degree in Electrical Engineering, Keene State College, Keene, NH
