
Standardized Patient Actor Resume

Job Objective

Seeking a Standardized Patient Actor position in an organization where I can utilize my skills and be an asset to the employer.

Highlights of Qualifications:

- Hands-on experience in providing standardized portrayal of patient's emotional and physical behavior
 - Profound knowledge of condition-specific psychosocial behavioral aspects
 - Outstanding knowledge of vital sign observation, monitoring, and reporting procedures
 - Familiarity with travelling to various locations and meeting clients
 - Ability to interpret and follow all given oral and written instructions, accurately
 - Ability to handle and respond to work-related queries, in a prompt and professional manner
-

Professional Experience:

Standardized Patient Actor
WCF Shared Services – Saint Petersburg, FL
August 2012 – Present

Responsibilities:

- Enacted patients' responses and depicted their behavior, in front of medical students and personnel.
 - Observed and demonstrated physical and emotional conduct of patients, in a realistic manner.
 - Watched and performed actions of patients suffering from common medical condition.
 - Examined and interpreted all information related to patient's vital signs and body.
 - Prepared and submitted all work-related feedback, in a timely manner.
 - Received and responded to acting requests associated with special-written cases.
 - Appeared in multiple training videos and performed roles of patients and nurses.
 - Cooperated with medical students and allowed them to practice on-site physical health evaluations.
 - Travelled to various sites and delivered acting services, as requested.
 - Developed and maintained cordial relationships with all students and employees.
-

Education:

Bachelor's Degree in Theatre
Woodbury University, Burbank, CA
