

STATISTICIAN CV

Statisticians' primary role is to analyze, tabulate and interpret data. These professionals commonly work for research institutes. They review facts and figures; collaborate with various experts in finalizing statistical reports; test programs and clinical studies; and improve performance of data processing and reporting. As such, when you write a Statistician CV, skills must be in parallel with the said duties. The sample CV of a Statistician below has 3 main parts – Personal Statement, Key Skills & Qualities, and Employment and Experience. Look how the skills are mentioned in each section. In the Objective section, the skills are briefly summarized; in Key Skills section, skills are very detailed and specific, while in the Employment part, skills are randomly mentioned.

Dorian Le

8731 Fringilla Street, North Berwick, East Lothian, O11 5PS

Tel: – 01821 662340

Date of Birth: – 18/04/90

[email]

Nationality: – British

PERSONAL STATEMENT:

I am an experienced Statistician with over two years experience analyzing and interpreting complex data. I have worked with various research experts; am very knowledgeable in using statistical tools and methodologies; adept in conducting sampling and validation; knowledgeable in Good Clinical Practices; have broad understanding of statistical concepts, methods and models and very expert in using computer applications. I was awarded "The Most Outstanding Statistician" in year 2012 for my participation in the program Recovery and Summary conducted by the Russian government. With this said, I am very confident that I will be a significant contribution to the company in meeting its objective.

KEY SKILLS & QUALITIES:

- Hands-on experience in managing statistical software for drug development
- Remarkable knowledge of various computer based statistical applications
- Immense knowledge of telecom and networking
- Ability to design inferential models for analysis
- Ability to perform academic research
- Familiarity of analyzing complex statistics

EMPLOYMENT AND EXPERIENCE:

Statistician JBA Group – Skipton 2012 – Present

- Developed efficient data management tools in coordination with the study team.
- Prepared designs for clinical trials and performed regular analysis.
- Coordinated with internal departments and resolved statistical issues.
- Prepared final reports and prepared tables for production.
- Performed tests on SAS programs and prepared reports for clinical study.
- Analyzed all complex statistical data and prepared required programs.

Statistician Simul Fortes Ltd – London 2011 – 2012

- Evaluated statistical plans and prepared documents for vendors.
- Developed and evaluated statistical data for individual studies.
- Supervised efficient development of statistical analysis processes.
- Supervised clinical database and maintained record for all forms.
- Coordinated with internal and external clients and provided efficient products.

QUALIFICATIONS:

BSc (Hons) in Mathematics and Statistics

University of Lincoln – Lincoln

2008 – 2011

A-levels: Statistics, Mathematics, Chemistry, Physics, English Language

The People's College – Nottingham

2006 – 2008
