
THEATRE NURSE CV

Theatre Nurses are versatile and highly competent professionals working within a perioperative team. They serve patients from all backgrounds within the specialized areas of hospital operating theatres, anesthetic units, and recovery areas. The qualifications required for Theatre Nurses include updated registered nurse license and specialist training certifications after a period of induction in an institution, good physical and psychological condition, and excellent interpersonal skills. Since a Theatre Nurse works in highly specialized areas that require competence and flexibility, your Theatre Nurse CV must be written in the most professional manner. Look how the CV of a Theatre Nurse is presented below.

PERSONAL PROFILE:

My main objective as a Theatre Nurse is to work in cooperation with a competent perioperative team in order to deliver optimum holistic care to patients. Part of this objective is to be a patient's advocate for health concerns and at the same time perform clinical skills such as health assesment, nursing diagnosis, planning, interventions, accurate evaluation and communication of findings with the entire operative team. I have a strong foundation in nursing knowledge and skills application, enhanced during my two years of exposure in two different health institutions. I am confident that with my training and dedication to patient welfare, I could be a useful asset to the institution.

PROFESSIONAL ACCOMPLISHMENTS:

Highly experienced in giving Anesthetics to patients
Good knowledge of surgical procedures
Deep knowledge of anesthesia administration processes
Familiarity with quality patient care services
Ability to perform ophthalmology procedures
Ability to prepare patients for surgery
