
TRANSMISSION LINE DESIGN ENGINEER RESUME

Summary:

A highly motivated individual with years of experience in transmission and design engineering; possesses excellent qualities such as teamwork, leadership, and analysis; possesses strong project management skills; substantial knowledge of computer aided design & drafting; has excellent written and communication skills.

Professional Experience:

Transmission Line Design Engineer January 2007- Present
ABC Industries, Los Angeles

Responsibilities:

- Managed all aspects of transmission and production.
- Facilitated the testing of transmission equipment.
- Performed analysis of transmission characteristics.
- Designed transmission lines for electric utilities.
- Maintained equipment and adhered to standard protocols in deploying satellite transmission and interactive media.
- Formatted data surveys.

Transmission Line Design Engineer May 2001- January 2007
Brandon & McMahon, Inc., Los Angeles California

Responsibilities:

- Built transmission line models for design analysis.
- Produced initial designs by building structured models.
- Checked clearances and uplifts.
- Determined structures and heights.
- Produced detailed project plans with detailed profiles.
- Performed site visits to determine problems and resolve issues with projects.

Implementation Engineer February 1999 – May 2001
East Bay Inc. – Los Angeles, California

Responsibilities:

- Managed all aspects of transmission and production.
- Facilitated the testing of transmission equipment.
- Performed analysis of transmission characteristics.
- Designed transmission lines for electric utilities.
- Maintained equipment and adhered to standard protocols in deploying satellite transmission and interactive media.
- Formatted data surveys.

Transmission Line Design Engineer May 2001- January 2007
Brandon & McMahon, Inc., Los Angeles California

Education:

Bachelor's Degree in Electrical Engineering, University of California, 1999

Skills:

- Excellent qualities such as teamwork, leadership, and analytical skills
 - Strong skills in the areas of project management
 - Excellent problem solving, organizational and communication skills.
 - Broad knowledge of transmission structures design
 - Vast experience with transmission line structure configuration and design
 - Substantial knowledge of computer aided design & drafting
-

Awards and Affiliations:

Member, Institute of Electronics and Electrical Engineer
Member, American Society of Electrical Engineers
