
WELDING SUPERVISOR CV

In creating a Welding Supervisor CV, you should highlight aspects that will convince the employer of your efficiency for the job. Expertise in supervisory management, welding process and technologies (Military, ASTM, BS, Ultrasonic Inspection etc.), workplace health and safety standards, and knowledge in existing regulations should be stressed out. Administrative skills like ordering and distribution of supplies, troubleshooting welding problems, and ability to work simultaneously on multiple projects should also be highlighted. Make sure to present the latest working experience and training certifications on top in their corresponding sections. A sample CV of a Welding Supervisor is presented below for your perusal.

Gabriel Smith

4798 Est, Av., Cowdenbeath, Fife, QQ58 2PN Date of Birth: June 30th, 1994

Email: [email] Mobile: 07156 027758 Tel: 01297 911805

PERSONAL PROFILE:

My primary objective as a welding supervisor is to contribute to the success of the company by applying my utmost knowledge and skills in all phases of the welding fabrication process. In order to do this, I will see to it that safety and quality standards are met and activities are cost-efficient. With two years of experience as a welding supervisor, I have honed my abilities in performing indispensable duties such as coordinating activities; supplies inventory; regular assessment of systems, equipment, and work ethics; and prompt intervention of conflicts as required. Among my objectives is the constant improvement of my abilities. Thus, I can confidently say I will be an asset to the company.

SKILLS PROFILE:

Strong working experience of mechanical engineering fabrication process and environment.

Strong knowledge of metals, mechanical components and assemblies, welding methods, magnetic particle inspection, dye penetrate inspection, ultrasonic inspection, destructive welding examination techniques, welding processes, welding symbols and definitions.

Strong knowledge of workplace health and safety standards.

Ability to quickly identify typical welding defects such as lack of fusion, cracks, porosity and variations in the weld density.

Strong ability to troubleshoot, identify root cause and systematically solve problems

Excellent team player.

Ability to work on multiple projects simultaneously.

EDUCATION:

HNC in Fabrication and Welding
Central Sussex College

Crawley
2010 – 2012
